Subject: Approval of Amended Notice of Intention to Commence Large Mining Operations, Barrick Resources USA, Inc., Mercur Mine, M/045/0017, Tooele County, Utah

Dear Mr. Giraudo:

The Division of Oil, Gas and Mining approves the amended Notice of Intention to Commence Large Mining Operations (NOI) for the Mercur mine. Although the Division finds the reclamation cost estimate acceptable, **any change to the amount of liability must be approved by the Board of Oil, Gas and Mining.** The Board retains authority to release, partially release, revise, or adjust the surety amount.

The approval or acceptance of a complete NOI does not relieve an operator from his responsibility to comply with the applicable statutes, rules, regulations, and ordinances of all local, state and federal agencies with jurisdiction over any aspect of the operator's mining operations. Enclosed please find a copy of the amendment to the NOI stamped approved.

The amendment received on January 15, 2016, updates the reclamation cost estimate until 2020. In summary the amendment includes the following:

- Updated "Table of Contents"
- The bond summary sheet which notes a five-year escalation and a reclamation cost estimate of \$3,357,447. The current contract with the Board of Oil, Gas and Mining is for a reclamation liability of \$4,766,352. No release has been requested. Any actual release of reclamation liability must be approved by the Board.

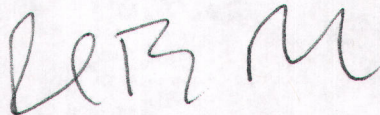

The Division's web page at www.ogm.utah.gov under the Minerals Program has a link to the rules under which you are expected to operate and to other information to assist you in complying with program requirements. Thank you for your cooperation.
